

Supply Chain Solutions

Unique projects call for opportunities to work with nimble and innovative partners. Flavor Flex is that partner. We understand that distribution is more complex than ever. There's continuous pressure to minimize costs, maximize labor productivity and meet increasingly demanding shipping deadlines. At the core, FF embraces each of these challenges while remaining true to our culture of People. Food. Together. You need to be able to adapt quickly to change and still meet all the "rights" (time, location, product, quality) and still hold true to the heart of your commitment to local as you support people, businesses, products and consumers.

A robust and forward-thinking team can help you stay on top of today's distribution challenges. An experienced and highly responsive team with warehouse management system development expertise, like Flavor Flex, can help you effectively and efficiently implement your new supply project.

Flavor Flex is a one stop solution center

Supplier Aggregation Facilitation:

Our progressive operations team is available to create a custom model for your unique project. Being experts in all areas of procurement, SKU management, and profitable palletization create a synergy in partnership where Flavor Flex becomes a fluid partner committed to efficient and cost-effective deployment.

In all solutions you own the product from source to store!

Inbound Freight Management:

Flavor Flex inbound freight management does more than just help our partners gain an understanding of where their shipments are at any given moment. Our IFM services encourage better supplier-carrier-customer relationships, reduce the need for excess inventory, improve reliability across the supply chain, and create an atmosphere of accountability for all supply chain partners. The result is a seamless flow of boutique commodities and increased opportunities for local

suppliers to become connected to “local” advocates and partners.

*We are offering multiple freight management opportunities for you to select based on your vision and needs!***We can:**

- Ship orders by store for redistribution through partner WH in bulk by SKU.
- Ship orders palletized by location, aggregated for efficient redistribution through DC with mixed SKUs.
- Ship orders from the FF Distribution centers by store for Direct to Store Delivery (last mile) in bulk by SKU.
- Ship orders from the FF Distribution centers palletized by store, aggregated for efficient Direct to Store Delivery (last mile) in bulk by mixed SKUs.
